

NOTICE TO MARINERS

Dungeness Buoys, UK

1st December 2007 to 31st March 2009

Fig1: Toroidal Guard Buoy

Fig 2: Waverider Buoy

Wave data is freely available in near real-time from www.cefas.co.uk/wavenet

Recording oceanographic equipment will be moored at :

50°54.18'N, 000°58.44'E

50°54.48'N, 000°58.14'E

There will be a Yellow Toroidal Shaped Guard Buoy at each site carrying radar reflectors. (Fig 1). A Waverider Buoy (Fig:2), at one site and a Seabed Lander (Fig 4) at the other site. Each buoy will display a flashing light of 5 flashes in 5 seconds with a 15 second eclipse and a repeat rate of 20 seconds (Fig:1).

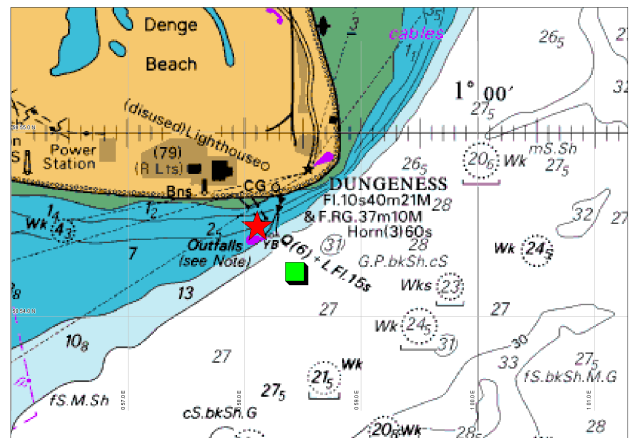

Fig 3: Buoy Location off Dungeness.

Fig 4: Seabed Lander

The Laboratory will be grateful if all shipping keeps at least four cables clear of the instrument.

Cefas, Pakefield Road, Lowestoft, Suffolk, NR33 0HT.
